

IB Science **Honesty** **Expectation**

Student and Guardian Signatures Required
Further information at www.plagiarism.org

Parent: _____

Collusion is defined as aiding or allowing plagiarism, academic malpractice, or violation of the student code of conduct as it pertains to this class and lab.

The student will not commit collusion, and understands that any such commission will be treated with equal severity as the malpractice involved.

Parent: _____

Plagiarism is defined, for this course, as the submission of another's work as one's own, either intentionally or not.

This includes, but is not limited to:

- uncited published resources
- other students' work
- previous students' work
- prior work submitted by the authoring student
- data gathered by another student

The student agrees to always submit his/her own work.

Parent: _____

The student will always do his/her own work.

- On every assignment
- On every quiz
- On every lab
- On every test

Parent: _____

The student will only record his/her own measurements.

- A lab partner's measurement will not be used.
- Equipment may be shared, but not data.

Parent: _____

The student will create his/her own data tables.

- Recorded data will be presented in a unique data table.
- Data tables may not be copied from any other source or student, with or without data.

Parent: _____

All written work will be generated by the student submitting the work.

- No shared hypothesis may be used.
- No shared procedure may be used.
- No shared data table may be used.
- No shared graphs may be used.
- No shared conclusions may be used.

Parent: _____

The student will only submit their own graphs and calculations.

- No shared graphs are allowed.
- No shared calculations are allowed.
- No copied graphs are allowed, from any source.
- No copied calculations are allowed, from any source.
